Dave will fill this in

An Antique Electronic restoration is the replacement of all paper and electrolytic capacitors in an antique television. More than 90% of the time this brings a Radio back to its original or better operating condition. There are two ways I calculate a price for a n antique Radio restoration. One way is \$10.00 (150 volt radios) or \$15.00 (higher voltage radios) per capacitor + other parts. If it's going to cost more than \$20.00 per capacitor with all the extra parts, I make \$20.00 per capacitor a flat rate price, which includes almost anything and everything necessary to get your antique Radio working like new or better. I call this my *White Glove Service*. Minimum cost of all tube type Radio restorations is \$75.00. Signing this form and sending a Money Order tells me that you are serious about having your Antique Radio(s) restored.

Normally the turn around time to restore an antique Radio is 2-3 days. Occasionally there are "complications" and the Radio needs parts beyond the paper and electrolytic capacitors, and dial lamp(s), if any. This might make your set take longer to restore. Most of the time, though, after replacing all paper and electrolytic capacitors, and making a few minor adjustments, an antique Radio will operate like new or better. I will determine which way to price your restoration, and when we agree, this price will be in the invoice area above.

I do **not** accept PayPal, checks, or credit cards. I accept cash or US Postal Money Orders, available only at a US Post Office, only. (Do not send cash through the mail). Please make all Money Orders payable to:  
 Dave's Antique Radio & TV Restorations  
 P.O. Box 285  
 Liverpool, NY 13088-0285  
 Please fill out the USPS Money Order Do not leave it blank

Payment Terms

For fastest service please enclose a US Postal Money Order, for the minimum amount (\$75 per Radio). Radios not picked up (no shipping has been paid for) or not paid for at all for within 15 days from the date of completion may be subject to a \$1.00 per day storage fee. Radios still not picked up or paid for after 6 months may be sold to recoup restoration / storage costs. All shipping must be paid for in advance. No items will be shipped unless shipping is paid for prior to shipping.
